PE (Polyethylene)

OPP (Polypropylene)

OUTER PE and OPP SLEEVES

All of our protection nylons are made of Polyethylene and Polypropylene material. OPP is crystal clear but more durable PE provides a slightly frosted appearance. It does not stick to the cover of the record, it is of optimum thickness and soft touch. These type of products cannot be made exact size due to the production method. There may be a deviation of a few millimeters from the specified dimensions.

RECORD SLEEVES

Çıtırtılı Sesler produces 29 kinds of quality 7", 10" and 12" record sleeves for listeners.

Antistatic coated products are coated inside the paper to prevent paper scratches

For colored, thick, coated and many other options visit the "Sleeves" section of our website for the full range

Record case types made using raw plywood are suitable for painting and customization. It is shipped disassembled with mounting screws, base felts and user manual.
